Copenhagen 'Deal' - A Frozen Flop

On with the fight for accountable evidence-based science & policy

This WeatherAction News No101 - as *George Orwell* would be pleased to note - carries news of *the worst fears of the Global Warmers* coming to pass. Their CO2 driven Global Warming theory is exposed as **failed science based on fraud** and their call for a world Climate Treaty is **mission failed** as Viscount Monckton spells out: <http://climaterealist.com/?id=4709>
Nevertheless as Piers Corbyn explained on 18 Dec on YouTube and on Infowars.com the scammers wont go without a fight and we need to take organised action (Links above or parts 1to 4 of infowars.com as follows:

Carbon trading & all CO2 reduction schemes must be stopped

More CO2 is good not bad!

<http://www.ilovemycarbon dioxide.com/indexd.html>

Despite the Copenhagen frozen flop the monstrosity of **Carbon Trading** continues to expand and the intention of most world leaders is to keep it that way. *Carbon trading is a new bubble of false value whereby giant multi-nationals move jobs around the world to increase exploitation and get paid by taxpayers of the world to do it!*

For example Tata Steel is moving 1700 jobs from England to India (displacing tribal villages) and is getting handouts in excess of \$1bn to do it. - All in the name of *Saving The Planet* through Carbon trading schemes etc promoted by the chair of the UN IPCC Dr Pachauri - who also heads up The (Tata) Energy Research Institute (TERI) & is involved in a shedload of related steel, oil and energy businesses up to similar tricks. Chris Booker & Richard North's superb analysis in UK Telegraph: <http://climaterealist.com/?id=4713>

- Dr Rajendra Pachauri is still too busy to reply to the letter from the gang of 13 international scientists (14 July 08) seeking EVIDENCE for the IPCC climate claims: http://www.tech-know.eu/uploads/Letter_UN_Sec_Gen_Ban_Ki-moon.pdf

Carbon sequestration schemes whereby CO2 is removed at power stations would halve the efficiency of power stations, double electricity prices, vastly increase energy prices and be a godsend to oil companies whose asset values & profits would soar.

They are madness and must be stopped. It's time to get real said Piers "*More CO2 makes all plants grow faster. This is good for agriculture and forests. CO2 is not bad it is the gas of life!*".

• It's failed science based on fraud

Gordon Brown: Show us EVIDENCE or DROP IT!

Gordon Brown on Dec 5th announced that 'We' (*he and Climate campaigners*) must convince (*Climate Realists*) that the evidence for CO2 driven Global Warming is strong. Ed Milliband his Minister of Climate Fraud & ex Deputy PM two-Jags John Prescott have said similar. We've written to John Prescott asking for evidence:

<http://climaterealist.com/index.php?id=4649&linkbox=true&position=2>

- We look forward to any such meeting which Gordon Brown convenes and suggest it be held in public and urge others to ask their MPs to also call for this OPEN PUBLIC DEBATE.

No hiding place for Obama - swiped by another SWIP!

President Obama hoped for better portents as he fled Copenhagen blizzards WeatherAction had forecast by solar activity from a month ahead. But No! As he landed in Chicago another MORE MAJOR SWIP (*Solar Weather Impact Period 19-20Dec for extreme activity*) announced* on Dec2 by WeatherAction struck swathes of Eastern USA in the **worst blizzards for 10 years killing at least 5 people**.

WeatherAction's forecasts for 19-31 Dec of ongoing deluges/blizzards is circulating freely in USA making it hard for Obama & Gore to claim Orwellian Doublethink that *it's Global Warming /Climate Change*; but doubtless they will!

*<http://climaterealist.com/index.php?id=4695&linkbox=true&position=4>

What is to be done?

On Infowars.com Piers put forward 3 headline points for ongoing activity to stop the CO2 GW scam:

1. **Campaign for accountable evidence-based science and policy** with public meetings & actions.
2. **Consumer Action.** Refuse to buy goods which claim to be aimed at reducing CO2/Climate Change and ask that such offensive dishonest advertsing be stopped.
3. **Reach out to honest Greens and political activists** who are being brought down by the CO2 scam when all they want to do is defend bio-diversity, nature's richness & people's rights & living standards.

Piers said "Honest greens and political activists the world over have been conned into the CO2 Global Warming scam which is in fact destroying what they believe in. A new honest green and people's agenda is needed. It is astounding that the UK newspapers valiantly standing against Carbon trickery and fraud are the Telegraph, Express and Mail yet the Independent and Guardian who purport to stand for justice, accountability, honesty and jobs are supporting the opposite".

- WeatherAction press conference on 18 Dec applauded the stand of **Viscount Monckton** in Copenhagen and expressed disgust at the **police assault** on him. http://www.eursoc.com/eursoc_news_and_comment_f/2009/12/monckton-assaulted-by-police-in-copenhagen.html

Snow in N Tuscany confirms 19-20 Dec SWIP

<http://goitaly.about.com/b/2009/12/19/snow-in-tuscany.htm>

<http://goeurope.about.com/b/2009/12/19/snow-tuscany-is-a-winter-wonderland.htm>

Simultaneously with Eurostar and many roads failing in UK & France and deadly blizzards lashing East USA, an active low on 19 Dec - forecast by WA to the day for West Med - bought heavy snow to Tuscany (where Tony Blair used to holiday!).

Support evidence-based science!

These Extreme forecasts are given Free but I need an Xmas present! says Piers Corbyn.

Seriously, WeatherAction gets no state funding & Copenhagen has taken a lot of effort, so **please**

What Was Hidden?

Marc Sheppard (eg) of American Thinker shows in detail how the CRU (Climate Research Unit at University of East Anglia) data 'is fraud' in a number of respects, how it has hidden a number of real changes such as the Medieval warm period and Little Ice Age - <http://climaterelists.com/index.php?id=4571&linkbox=true&position=4> and overstates recent 'surface measurements' due to (eg) reliance on unreliable urban stations which do not pass official siting criteria. Fiddling of data in New Zealand & Russia is also reported on the video - link on page1.
